Email: jladerer@my.lonestar.edu

Proposal:
A website containing the information for a small business that is a bakery selling many goods. Such goods being breads, pastries, puddings, chocolates, cookies, etc. The main focus for this would be to sell the baked goods as well as to be able to promote the business and have an area that would allow for other businesses and others to place orders.

Assumptions:
Information:
Name of the organization: Warm Oven Delights
Address: IMED 1316, Kingwood, TX
Contact Information:
Phone: 111-222-3344
Email: jladerer@my.lonestar.edu

Description:
Warm Oven Delights is a bakery business that aims to help its community through helping folks create memories. It's a small business owned by a family that aim to serve up comforting classic dishes and baked goods that taste like home.

Statement of Need:
Starting from the ground up this business needs a website to be able to properly start off on the right foot by being able to successfully show their menu as well as a possible application of ordering through their website. That way they can reach as many customers as possible while also being able to take orders since they don't necessarily have a storefront that you can go into. By doing this, it allows them to achieve these goals through the application of this website correctly communicating what their business is about.

Goals:
The goal of this website is to be able to effectively communicate to customers what is on their menu and for others to be able to buy products from them.

Objectives:
- Increase brand awareness
- Drive local foot traffic
- Boost online sales
- Visually appealing and easy to use website that is user-friendly
- Showcase products

Target Audience:
- Local residents
- Families
- Local businesses looking for catering
- Folks who value fresh, great quality baked goods
